

## Delcam Recommended Hardware Specifications

**Processor Type and Speed:**

Multi-core CPU, preferably quad-core

**RAM:**

8GB for 64-bit applications (Minimum)

**Graphics Card:**

NVIDIA Quadro Graphics Cards  
(At least 2GB fully OpenGL 2.0 compliant)

**Hard Disk Size:**

160 GB

**Screen Resolution:**

1920 x 1200

**Operating System & Version:**

Windows 10 64-bit Professional Edition

(Please read important information below)

### Notes regarding operating system support

- Delcam 2015 Series Products are supported on Windows 7 32-bit, Windows 7 64-bit, Windows 8 64-bit & Windows 10 64-bit (Note: Microsoft ceases Windows 7 Support in January 2015).
- Delcam 2016 Series Products will only be available as 64-bit installs and will only run on Windows 7 64-bit, Windows 8 64-bit & Windows 10 64-bit.
- Delcam only offers support and fixes for bugs reproducible in current series products on currently supported OSs.
- Delcam does not support Windows RT (A version of Windows 8 released for ARM devices such as tablets).
- You are advised to check on availability of 3rd party 64-bit drivers for external hardware (e.g. inspection arms and CMM's).

\*\*\*\*\*

The basic nature of our recommended hardware specifications reflects the fact that Delcam cannot successfully test and research all available configurations. Due to a wide variety of PC models and manufacturers, we cannot guarantee that a specific build will give optimal results with our products.

Although not always an option, we do recommend the tried and trusted method of the "try before you buy" policy.
