Complete CAD/CAM Solutions

With over 40 years of experience developing CAD/CAM software, Delcam's range of expertise is second to none. Growing from industrial collaboration with Cambridge University in the early 1970s, Delcam has continually invested 50% of software royalties in research and development, and is now a leading supplier of CAD/CAM software and services with more than 700 staff worldwide. Delcam has received 6 Queen's Awards for Industry, and floated on the UK Alternative Investment Market in 1997. Working closely with its network of more than 150 subsidiaries and partners in The Americas, Europe, and Asia, Delcam provides the software solutions that help 40,000 customers in 80 countries manufacture aerospace and automotive parts, moulds, tools, dies, consumer products, shoes and medical devices. Delcam is unique in the CAD/CAM industry in having its own Advanced Manufacturing Facility where software is tested in a production environment before being released.

Delcam plc headquarters, Birmingham, UK

PowerMILL

PowerMILL is the world's leading specialist NC CAM software for the manufacture of complex shapes, providing advanced machining strategies to minimise machining time and maximise finish quality.

“PowerMILL allows me to machine my parts faster and better than any software I've ever used.”

Paul Miranda, Magna Advanced Technologies,
a Department of Magna International Inc
www.delcam.tv/magna

PowerSHAPE

PowerSHAPE integrates surface, solid and triangle modelling. Design complex 3D models from scratch, or prepare imported data for manufacture, quickly, simply and accurately.

“PowerSHAPE is a seamless solid modeller that lets me make parts we can actually mould.”

Calvin Matte, Omega Tool Corporation
www.delcam.tv/omegatoolcorp

PowerINSPECT

PowerINSPECT provides a complete CAD-based inspection solution with easy-to-use reporting. It accepts measurement data from all types of devices, including manual and CNC/ DCC CMMs, portable arms, optical measuring devices, and CNC machine tools.

“I would recommend PowerINSPECT to any company that wishes to reduce the time it takes to make measurements and to improve their accuracy.”

Tony License, Force India F1
www.delcam.tv/forceindiaf1

FeatureCAM

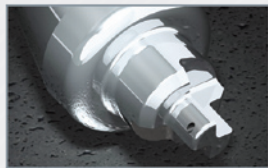

FeatureCAM is the unique CAM system that uses feature-based and knowledge-based technologies for automated machining, minimising programming times for mills, lathes, turn-mill, and wire machines.

“I recommend FeatureCAM because it's really easy to learn and you can start making your parts right away.”

Paul Johnson, Robinson Helicopters
www.delcam.tv/robinsonhelicopters

Delcam for SolidWorks

Delcam for SolidWorks is a Certified Gold Product that revolutionises CAM programming inside SolidWorks for milling, turning, turn-mill and wire EDM operations.

“Delcam for SolidWorks allows me to apply toolpaths to my SolidWorks designs really easily.”

David Crenshaw, Crenscor Machining
www.delcam.tv/crenscor

PartMaker

PartMaker applies a Patented Visual Programming approach to automate the programming of multi-axis Swiss-type lathes and turn-mill centres.

“PartMaker is used 100% of the time for programming our Swiss-type lathes.”

George Deeb, Lanx
www.delcam.tv/lanx

Dental Solutions

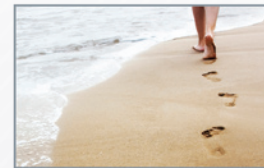

Delcam's Dental Solution is the world's only open Scan / CAD / CAM solution, providing a range of hardware and software technologies for rapidly designing and manufacturing any type of dental restoration, from simple copings through to abutments, dental bars and implant bridges.

“Thanks to DentMILL, I am able to nest 60% more parts in each block of zirconia saving more than \$200 per disc.”

Jim Glidewell, Glidewell Laboratories
www.delcam.tv/glidewell

Custom Orthotic Insoles

Delcam Custom Orthotic Insoles Solution provides medical laboratories and practitioners with scanning, CAD & CAM technologies to automate the process of delivering patient specific custom insoles in hours not days, whilst reducing costs by 75% or more.

“OrthoModel makes it easy to produce orthotics of nearly unlimited complexity that are perfect the first time.”

Greg Armstrong, Mile High Orthotics
www.delcam.tv/mile-high-orthotics

“ArtCAM has helped us turn designs around much quicker and achieve what we wanted to see with detail and quality.”

Cosme Saffioti, Royal Canadian Mint
www.delcam.tv/royalcanadianmint

ArtCAM is an artistic CAD/CAM software range used by hobbyists and large multi-nationals to create high quality, decorative 2D or 3D products from artwork, quickly and efficiently.

Delcam CRISPIN is the world's leading supplier of CAD/CAM software solutions for the footwear industry. Delcam CRISPIN provides the required tools to make design and manufacturing decisions earlier, minimise samples, improve fit, reduce tooling costs and improve product time to market.

“Thanks to CRISPIN Engineer Pro we have reached quality standards we did not dream of.”

Philippe Zecchetto, CEO of Diamant DMT

Global Support

Delcam's Support Engineers are located at more than 300 offices worldwide and have thousands of man years of experience between them. Their knowledge covers not only Delcam's products but also the specific manufacturing technologies and processes used within the market sectors that Delcam serves. This combination of resources ensures that whenever a problem arises, your downtime is kept to a minimum by providing you with the help you need, when you need it. With a Maintenance Contract, help is just a phone call or email away, in your own language, from your local Delcam Sales Partner.
